Community Judgment Submission & Verification System

Crowdsourced Judicial Precedents • AI Citation Extraction • Editorial Review • Precedent Publishing

Document Area	Details
Product	AI LEGAL™ Community Judgment Submission & Verification System
Submission Route	/submit-judgment / PostJudgment.jsx
Core Pipeline	Advocate submission → AI extraction → Editorial review → Approval → Precedent Knowledge Hub
Upload Capacity	Judgment PDFs up to 50 MB

🏠 AI LEGAL — Community Judgment Submission & Verification System

Crowdsourced Judicial Precedents, AI Citation Extraction, Editorial Review & Precedent Publishing

1. Executive Summary & Core Objective

While official law reporters (such as SCC, AIR, and DLT) publish landmark appellate judgments, thousands of critical daily rulings—including groundbreaking High Court interim orders, progressive bail decisions, commercial arbitration awards, and consumer commission verdicts—remain unpublished or unreported. These rulings represent invaluable practical precedents for trial advocates and legal researchers.

The \\AI LEGAL Community Judgment Submission & Verification System\\ (/submit-judgment\\ / \\PostJudgment.jsx) creates an open yet strictly governed legal intelligence pipeline:

- \\Crowdsourced Advocate Contributions:\\ Allows practicing advocates, legal scholars, and law clerks to contribute recent unreported judgments and court orders.
- \\Robust 50 MB PDF Ingestion:\\ Secure memory streaming supporting multi-hundred-page judicial pronouncements and scanned certified copies.
- \\AI Citation & Ratio Decidendi Extraction:\\ Automated parsing of court benches, parties, decision dates, statutory provisions, and core legal holdings.
- \\Editorial Studio & Compliance Gatekeeping (\\AdminJudgmentsSection.jsx):\\ Human-in-the-loop review pipeline ensuring only authentic, legally sound judgments are approved.
- \\Precedent Knowledge Hub Publishing:\\ Approved judgments are indexed directly into the platform's \\AI Legal Precedents Search Engine\\ and RAG Knowledge Hub, complete with professional attribution for the contributing advocate.

2. Technical Architecture & Submission Lifecycle

end
\\
```

Key Source Files:

- \\Frontend Submission Page:\\ \\d:\\AI Legal\\AILEgalApp-backend-webpage-\\AI-LegalAppWebapp\\src\\pages\\PostJudgment.jsx\\
- \\Backend Router:\\ \\d:\\AI Legal\\AILEgalApp-backend-webpage-\\AI-LegalAppBackend\\routes\\judgmentSubmissionRoutes.js\\
- \\Backend Controller:\\ \\d:\\AI Legal\\AILEgalApp-backend-webpage-\\AI-LegalAppBackend\\controllers\\judgmentSubmissionController.js\\
- \\Editorial Review Studio:\\ \\d:\\AI Legal\\AILEgalApp-backend-webpage-\\AI-LegalAppWebapp\\src\\pages\\AdminDashboard\\components\\AdminJudgmentsSection.jsx\\

3. Contributor Form Fields & Upload Specifications

The submission form (\\PostJudgment.jsx) collects both advocate attribution details and the judicial document:

3.1 Contributor Information

- \\Advocate Full Name (Required):\\ Formal legal name (e.g. \\\"Adv. Rajesh Sharma\\\").
- \\Bar Council Enrolment Number (Required):\\ Unique Bar ID (e.g. \\D/1420/2019\\).
- \\Verified WhatsApp Number (Required):\\ For automated publication and editorial status updates.
- \\Email Address (Required):\\ Contributor contact and account matching.
- \\Social & Professional Profiles (Optional):\\ LinkedIn URL, Twitter/X handle, and Instagram profile for contributor attribution cards.
- \\Profile Photo (Optional, up to 15 MB):\\ Professional advocate portrait displayed on the published precedent banner.

3.2 Judicial Document Specifications

- \\Matter / Case Title (Required):\\ e.g. \\\"M/s Skylark Logistics vs. State of Maharashtra & Ors.\\\"
- \\Judgment PDF Upload (Required):\\ Supports certified copies, digital order sheets, and signed court PDFs up to \\50 MB\\:

```
\\javascript
```

```
// judgmentSubmissionRoutes.js (Lines 16-20)
```

```
const storage = multer.memoryStorage();
const upload = multer({
  storage,
  limits: { fileSize: 50 * 1024 * 1024 } // 50 MB limit for large judicial pronouncements
});
```

```
\\
```

4. AI Citation & Ratio Decidendi Extraction

When a judgment PDF is received, the AI Legal Citation Engine parses the text to extract structured metadata:

```
\\mermaid
```

```
graph TD
```

```
PDF[Raw Judgment PDF Text] --> Parser[AI Legal Citation & Precedent Parser]
```

```
Parser --> Metadata[Judicial Metadata Extraction]
```

```
Parser --> Reasoning[Legal Analysis & Ratio Synthesis]
```

Metadata --> M1[Court: Supreme Court / High Court / Tribunal]

Metadata --> M2[Bench: Presiding Judge / Division Bench composition]

Metadata --> M3[Parties: Appellant vs Respondent]

Metadata --> M4[Decision Date & Case / Docket Number]

Reasoning --> R1[Ratio Decidendi: The binding legal principle established]

Reasoning --> R2[Statutory References: Sections cited under BNS, BNSS, BSA, CPC, etc.]

Reasoning --> R3[Distinguished / Followed Authorities: Prior Supreme Court citations]

\\

Extracted Metadata Example:

\\json

```
{
  "caseTitle": "Vikram Sethi vs. Union of India & Anr.",
  "court": "High Court of Judicature at Delhi",
  "bench": "Hon'ble Mr. Justice C. Hari Shankar",
  "decisionDate": "2026-08-14",
  "citation": "2026:DHC:5412",
  "statutoryProvisions": [
    "Arbitration and Conciliation Act 1996 - Section 11(6)",
    "Commercial Courts Act 2015 - Section 12A"
  ],
  "ratioDecidendi": "Pre-institution mediation under Section 12A is mandatory, but where urgent interim relief is sought under Section 9, failure to participate in mediation does not render the Section 11 petition premature.",
  "status": "pendingeditorialreview"
}
```

\\

5. Editorial Studio & Quality Review (AdminJudgmentsSection.jsx)

To preserve academic integrity and prevent fake judgments or duplicates from polluting the RAG knowledge base, platform legal editors review submissions via the Admin Console:

5.1 Editorial Review Checklist:

1. \\Document Authenticity:\\ Validates digital signatures, official court watermarks, and certified stamp seals.
2. \\Bar Council Verification:\\ Ensures the submitting advocate has a valid Bar enrollment.
3. \\Redaction of Sensitive Details:\\ Enforces statutory privacy safeguards (such as anonymizing victim identities in sexual offence cases under Section 228A IPC / Section 73 BNS, and Juvenile Justice matters).
4. \\Citation Normalization:\\ Standardizes judgment references into neutral citation formats (e.g. \\2026 INSC 412\\ or \\2026:DHC:3021\\).

5.2 Status Transitions:

- \\pending: Under initial review by the editorial board.
- \\approved: Validated; queued for vector embedding generation.
- \\published: Searchable across the AI Legal Precedents database.
- \\rejected: Incomplete document, duplicate filing, or uncertified text.

6. Precedent Publishing & Contributor Attribution

Once approved, the judgment is published with prominent credit to the contributing advocate:

\\

□ LANDMARK HIGH COURT PRECEDENT	
Vikram Sethi vs. Union of India [2026:DHC:5412]	
Bench: Hon'ble Mr. Justice C. Hari Shankar Delhi HC	
□ Contributed & Verified by:	
[Photo] Adv. Rajesh Sharma (Delhi Bar Council: D/1420/2019)	
LinkedIn: linkedin.com/in/advrajesh Verified Contributor	
□ Key Legal Ratio (Ratio Decidendi):	
"Pre-institution mediation under Section 12A is mandatory..."	
[□ View Full PDF] [✕ Run AI Case Analysis] [Cite]	

\\

Benefits for Contributing Advocates:

- \\Professional Recognition:\\ Showcases litigation victories and research expertise to peers and potential clients browsing the directory.
- \\RAG Knowledge Base Attribution:\\ When other lawyers query the AI Legal Assistant on related topics, the AI cites the judgment and notes: \\Contributed to AI LEGAL by Adv. Rajesh Sharma\".
- \\Platform Rewards:\\ High-volume verified contributors receive complimentary enterprise usage credits and featured placement in the Advocates Directory.

7. Backend API Reference for Judgment Submission

\\ Route | Method | Access Level | Description |

\\:---|:---|:---|:---|

\\ /api/judgment-submissions/submit\\ | \\POST\\ | Public / Multipart | Ingests contributor info, profile photo, and judgment PDF (up to 50 MB). |

\\ /api/judgment-submissions/:id/view-pdf\\ | \\GET\\ | Public | Securely streams uploaded judgment PDF directly to the in-app document viewer. |

\\ /api/judgment-submissions/all\\ | \\GET\\ | Admin / Editorial | Lists all submissions with status filters (\\pending\\, \\approved\\, \\published\\). |

\\ /api/judgment-submissions/:id\\ | \\GET\\ | Admin / Editorial | Fetches full submission details and AI-extracted metadata for editorial review. |

\\ /api/judgment-submissions/:id/status\\ | \\PATCH\\ | Admin / Editorial | Updates review state to \\approved\\, \\published\\, or \\rejected\\. |

\\ /api/judgment-submissions/:id\\ | \\DELETE\\ | Admin | Permanently deletes spam or invalid submissions. |
